Salary

DJ,

It was good to get caught up on everything and to sort out most of my deal.

Recap:

\$32k a year plus 15% of Share the Sail 'net' as discussed. When I'm on payroll I'll know our new deal has begun. I look forward to crawling out of my bilge work on boats here and pursuing our bigger better Share the Sail plans.

We can work out the little details we talked about in other emails.

Woody
